

# RESUME :: EVERT MOUW (1976)

[post@evert.net](mailto:post@evert.net) | Schapendrift 8, 8075 BA Elspeet, The Netherlands | [www.evertmouw.nl](http://www.evertmouw.nl)

## INTRODUCTION

How broad can you go? I am an individual with very broad interests, including information technology and security, politics, medicine, economics, and strategic thinking. I am a rational, analytic, result driven, independent individual. I like to explore new ideas and techniques. I enjoy taking the initiative in social situations, yet I also like distraction-free working when I am writing, reading, or programming.

After high school, I first worked in IT for a while, and later started taking classes at the university, taking a broad range of subjects, which resulted in two non-overlapping master diplomas.

Currently I am involved in grid computing at a research department of a university medical center. I will be available for new adventures after summer 2012.

## UNIVERSITY

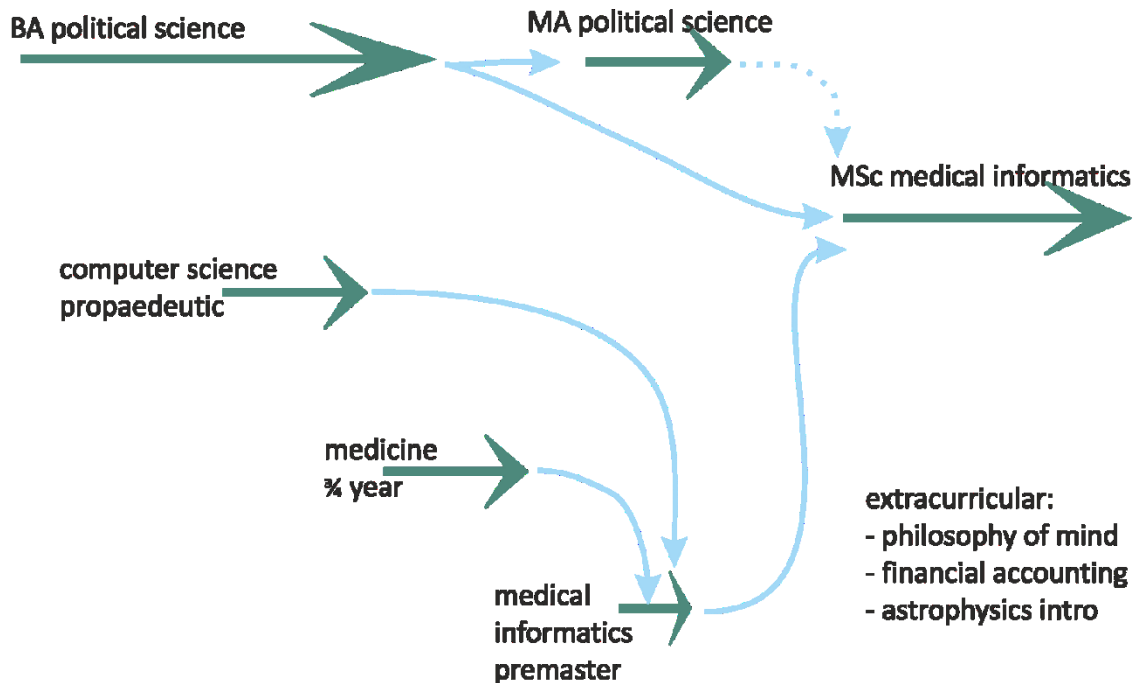

**MSc *medical informatics*** (expected in Q3 2012) @ University of Amsterdam, Academic Medical Center

**MA *political science*** (for thesis visit [www.epd-enquete.nl](http://www.epd-enquete.nl)) @ Leiden University, Campus The Hague

**Propaedeutic (1 year) *computer science*** @ Leiden Institute for Advanced Computer Science

**Additional courses:** introduction to astrophysics, financial accounting, philosophy of mind, bioinformatics, information security,  $\frac{3}{4}$  year *medicine*.

All university courses are shown in my [list of marks](#)

## STUDENTS' ASSOCIATIONS

I have actively participated in the IT support of two student's associations: [Levitas](#) and [Catena](#).

## ACADEMIC PUBLICATIONS

- *Legal constraints on genetic data processing in European grids.* By **E. Mouw**, G. van 't Noordende, A.H.C. van Kampen, B. Louter, M. Santcross, and S.D. Olabbarriaga. HealthGrid conference, 2012.
- *Exploring the potential of electronic nose measurements for diagnosing sarcoidosis.* By P. Brinkman, S. Dragonieri, **E. Mouw**, M.P. van der Schee, P.J. Sterk, R.E. Jonkers. American Thoracic Society conference, 2012. Publication not yet confirmed.
- *(A paper on an information security risk assessment method for escience portals is planned.)*
- *(A paper on political attitudes related to the Dutch electronic patient record is planned.)*

## WORK EXPERIENCE

### GRID SUPPORT & DATA SECURITY, 2011-10 TO 2011-06

*Academic Medical Center, University of Amsterdam: Department of Biostatistics and Bioinformatics*

Supporting the ebioscience infrastructure middleware, connecting users to distributed grid computing. Also researching the information security needs for such resource utilization.

### PATIENT TAKE-IN AND TESTING, 2011-04 TO 2011-06

*Academic Medical Center, University of Amsterdam: Lung department*

Participating in a research team that tested the feasibility of e-nose technology for sarcoidosis diagnosis. I did the patient take-in and instruction and also a statistical analysis.

### MASTER THESIS ON E-HEALTH PRIVACY, 2009-12 TO 2010-04

*Leiden University: Political Science department*

Performing a survey on political attitudes on the electronic patient record, doing a statistical analysis, and writing a thesis.

### SYSTEM ADMINISTRATOR (IT), 2002-01 TO 2009-11

*Dimagroup Consultancy, Rijswijk ZH*

I did the total IT support for a small organization. That included installation and support of Windows, Linux and Apple server and client hardware, managing email systems, the internet connection (firewall) and phone lines.

### WEB DEVELOPER, 2002-01 TO 2002-06

*ROCA12 Centrale Dienst, Ede*

I added advanced and integrated search options for specified document types for the intranet search using ASP and Microsoft SQL server.

### TECHNICAL SPECIALIST AND ITIL CONSULTANT, 2001-03 TO 2001-10

*Be Value, Apeldoorn*

ITIL problem management implementation with Achmea as a junior problem manager.

### SYSTEM ADMINISTRATOR AND WEB DEVELOPER, 2000-03 TO 2001-01

*Intapps (Internet Applications), Utrecht*

My job was to maintain and expand the IT support. Intapps was a fast-growing internet startup, based in London (UK) and the Netherlands (Utrecht).

## Resume of Evert Mouw

### SYSTEM ADMINISTRATOR (IT), 1998-05 TO 1999-12

*Van Ravenhorst Accountants, Putten*

Office IT maintenance (server and desktop) for a financial accounting firm.

### TECHNICAL SUPPORT (HELPDESK), 1998-01 TO 1998-05

*Planet Internet, Amersfoort*

Helping customers of this internet access provider to get online again after all kinds of failures.

## POLITICAL EXPERIENCE

I chaired the student's council at high school. Later, I chaired a youth's council. I have written articles and interviews for a local newspaper. I sometimes write articles on my personal weblog and other weblogs, mainly on politics and technology. During my political science education some of my professors were well-known politicians. My standpoints focus on realism, Western civilization, freedom, and financial durability. However, until now politics and public policy was not a career goal for me, but merely an intellectual interest.

## TECHNICAL SKILLS

I have very broad technical knowledge and skills oriented towards system administration and networking, both Windows and open source. I "eat my own dog food" using my own Linux server for my email and websites. I have good programming skills but not much development experience.

CERTIFICATIONS: **MCSE** (Microsoft Certified Systems Engineer) NT4 & Win2k, for modules completed check my [transcript](#). **AMBI** (EXIN). **ITIL** foundations.

TECHNOLOGY KEYWORDS: Windows, Linux, Ubuntu, Slackware, Apple, mail systems (Postfix, Exchange, Exim, Squirrelmail, Thunderbird, IMAP, maildrop, SMTP), databases (MS SQL, MySQL), routers, Cisco, GPS, PDF, Latex, printers, firewalls, DNS, Apache, SSH, file synchronization, Unison, Samba, bash scripting, mail filtering, backups, C, C++, C#, BASIC, R, HTML, PHP.

## HOBBY'S

Playing RTS games and chess, camping outdoor & hiking, kayaking, watching movies, going to the sauna with friends, motor biking, running (preferably on the beach), reading, horseback riding (not so often), and 'computers'. I recently discovered the Euler project: it is fun to solve mathematical puzzles using programming.

## LANGUAGES

**Dutch:** native  
**English:** good  
**German:** basic

## /DEV/RANDOM

**VWO (high school)** Christelijk Lyceum Apeldoorn, with honor certificate

**Driving License** A and B (motorbike and car)

**WAFA** (Wilderness Advanced First Aid)

**Scouting** youth leadership qualification

A handwritten signature in black ink, appearing to be "EM" or similar initials.
